# Intelligent Cash Recycling

**Bill to Bill 300**  
currency management system

## Features

- Validates, recycles and dispenses bills
- Select up to three denominations for recycling—and easily designate “float” level
- Superior acceptance and security: 96% + first time insertion acceptance rate
- Validating head includes all high-tech features of the CashCode FrontLoad bill validator
- Superior security with two drop cassette locks and a patented third lock. A fourth recycling assembly lock is also available

## Convenience for You and Your Customers

- Recycling cassettes replenish with cash transactions—saving you cash refilling and removal costs
- Reduces overall cash on hand and operating costs
- Reduces number of cash fill up/removal calls
- Tool-free, one-step easy front access
- CCNet protocol allows for easy, remote online software download
